Vision of the College

The college has a motto of 'Excellence in Education' in order to provide affordable quality education, while equipping students with knowledge and skills in their chosen streams, inculcate values, identify hidden talents, provide opportunities for students to realise their full potential, and thus shape them into future leaders, entrepreneurs and above all good human beings.

CULTURAL CORNER

❖ **National Periodic Table Day - (07-02-2023)**

National Periodic Table Day is celebrated annually by the scientific community on February, 7th. This day is dedicated to recognising one of the most important tools in chemistry, the periodic table. The periodic table is a chart that organizes elements based on their atomic number, electron configurations, and chemical properties.

Keeping this in view, Dr YSR Govt. degree college, Vedurukuppam celebrated National Science Day on 7th February 2023. At the outset, the principal of the college Dr. B. Annapurna Sarada said that National Periodic Table Day offers an opportunity to celebrate the remarkable achievements of chemists who have contributed to our understanding of the elements.

Fig: Inaugural speech by the college Principal

The program was graced by the Department of Chemistry. The HOD of chemistry and vice principal as well, Dr V. Prabhakar Rao spoke to the students, the modern periodic table was created by a Russian chemist named Dmitri Mendeleev in 1869. Mendeleev was able to make the periodic table based

on the properties of elements known at that time. He arranged the elements in rows and columns based on their atomic weight, providing a simple and organized method for understanding the nature of elements. Today, the periodic table continues to be a crucial tool for chemists, physicists, and other scientists.

Fig: Speech by the HOD of Chemistry- Dr.VPR

Smt. K. Saritha, department of chemistry said, the periodic table is composed of a series of boxes arranged in rows and columns. Each box represents a specific element and includes its atomic number, symbol, name, and atomic mass. Elements within the same column share similar physical and chemical properties.

Fig: Speech by Dr. K S R, HOD of commerce

In recent years, physicists have also been able to create new elements through nuclear syntheses,

providing exciting possibilities for future research, said IQAC coordinator- Dr P. Venkatesu.

And then, Speaking to the students Dr K. Sankar Reddy said diamond and charcoal contain carbon atoms but their values are different. About 100 students and faculty members participated in the program. The following are glimpses of the program.

➤ **Open Day Program- (16-02-2023)**

To increase student enrollment in Government Degree Colleges, the CCE has proposed to conduct an orientation program for junior college students and organising an open day at all GDCs to facilitate an exposure visit for the final year students of junior colleges in the surrounding areas of Government Degree colleges. In this connection Dr YSR GDC, vedurukuppam has organised a student drive to the Junior Colleges along with the teaching staff on 15th February 2023. The lecturers of GDC, Vedurukuppam explained the available courses, infrastructure facilities, training and placement drives conducted, and faculty achievements to orient the final year junior college students. and they also invited Junior College principals to visit GDC vedurukuppam on the open day of 16th February 2023, to acquaint themselves with the facilities available at Dr YSR GDC, vedurukuppam.

The vice principal of Dr. YSR GDC, vedurukuppam- Dr. V. Prabhakar Rao, IQAC coordinator- Dr. P. Venkatesu conducted the program under the Internal Quality Assurance Cell (IQAC). NSS coordinator- Dr. C. Mangala Gowri, and YRC Coordinator- Dr. K. Sankar Reddy also participated in the program. On the 15th, all the junior college students visited the Labs available at Government Degree College, vedurukuppam and did the experiments available in the labs.

On the 16th the principals/in charge principals of chavatagunta, penumur and chadragiri were invited to the Open-Day program and were honoured to build a good rapport. The following are a few glimpses of the program.

➤ International Mother's Language Day (21/2/2023)

Fig: The first words of the president- Dr B. Annapurna Sarada, also principal of the college on International Mother's Day

International Mother's Language Day is celebrated annually on February 21st to promote linguistic and cultural diversity and multilingualism worldwide. The day was first announced by the United Nations Educational, Scientific and Cultural Organization (UNESCO) in November 1999 and has been observed globally since 2000.

Dr. YSR GDC, Vedurukuppam celebrated the program on 21st, Feb. 2023. The program starts with prayer and is initiated by the Department of Telugu. Dr. K. Bhima Mohan Rao, HOD of Telugu said the day recognizes the importance of mother languages as a tool for preserving and promoting cultural heritage, cultural diversity, and intercultural dialogue. It also serves as a reminder of the tragic events that took place in Bangladesh in 1952 when students who were protesting for the recognition of Bengali as a national language were killed by the police. International Mother Language Day is a national holiday in many countries, including Bangladesh, India, and Pakistan. Also, we celebrated International Mother Language Day by conducting activities such as language competitions, cultural performances, language learning workshops, and discussions on the importance of preserving mother languages. It can also be an opportunity for students to share their linguistic and cultural backgrounds and learn from each other. Finally, the college principal admired the Telugu faculty for successfully conducting the program in a smooth manner.

➤ **National Science Day- (28-02-2023)**

Since 1987, our country has celebrated National Science Day on 28th February to commemorate the discovery of the 'Raman Effect' by one of the renowned physicists of India- Sir CV Raman. This year the theme was "Global science for Global Wellbeing".

Keeping this in view, Dr YSR Govt. degree college, Vedurukuppam celebrated National

Science Day on 28th February 2023. As a part of its enterprise to conduct a wide range of extra-curricular programmes and activities to sensitize the students on social, cultural and ethical issues, the Department of Physics in association with IQAC organised an online quiz on the Raman effect. More than 100 participants from all over attended the quiz and got participation certificates.

Apart from it, a range of other activities like quiz competitions, essay writing competitions and power point presentations were also arranged. Students from various undergraduate courses participated enthusiastically in these events. The programme began with a short prayer service followed by words of welcome by Dr. S. Rushma, lecturer in Mathematics who compered the program. The College Principal Dr. B. Annapurna Sarada was the chief guest. She addressed the gathering with her stimulating thoughts on Science & Technology. The significance of the day was highlighted by the vice principal- Dr. V. Prabhakar Rao, IQAC coordinator- Dr. P. Venkatesu, Academic coordinator- Smt. B. Lakhmi prasanna Latha and DRC coordinator- Dr. C. Aruna. The Speakers, in their message, interacted with the students and urged them to show interest in experiments and technology so that we are well prepared with the scientific tempo needed for NEP. A true tribute to our great physicist Sir C.V. Raman on National Science Day!!!

At the end of it, the results of various competitions like quizzes, Essay writing, and Oral presentation were announced by the cultural coordinator Dr. K. Bhimamohan Rao. The higher authority congratulated all the prize-winners. Finally, the YRC coordinator Dr. K. Sankara Reddy delivered the vote of thanks by enlightening the students on science in daily life and emphasising its importance. The following are a few glimpses of the Program in print media.
