

Swarna Andhra @ 2047 Vision

Marking 100 years of independence, 2047 is a milestone every Indian looks forward to. The 25 years' period leading up to the 100 years of India's independence, termed as Amrit Kaal, has been envisioned to usher in a period of rapid holistic growth, making India a developed economy with a GDP of \$30Trillion by 2047.

Andhra Pradesh is committed to playing a pivotal role towards making India a developed nation by 2047. Towards this role, Andhra Pradesh aims to become a developed economy and provide a high quality of life for all citizens.

For comprehensive development across sectors and ensuring that the fruits of development are available to all sections, the Government of Andhra Pradesh is working towards "Swarna Andhra @ 2047 Vision" document. This vision document will serve as the foundational blueprint outlining the overarching goals, objectives, and desired outcomes for the state.

Key aspects envisaged for sustained socio-economic development

This vision envisages that by 2047, Andhra Pradesh will focus on all aspects of socio-economic development, including strategic economic priorities as below:

High economic growth, at an average rate of 15% every year, by promoting investments, innovation, and job creation across sectors

More than double Per Capita Income by 2029

World-class infrastructure and multi-modal connectivity across the state, including industrial corridors, international airports and cargo terminals

Leveraging its strategic ~975 km long coastline to develop blue economy to its full potential, with deep sea mining, aquaculture, tourism, and other opportunities

Large-scale Knowledge economy, with multi-disciplinary education and research and innovation in next-generation topics

Leading the national transformation in natural farming and emerging as the largest exporter of organic goods in India

Emerging as a Renewable energy and Green Hydrogen Hub for India and the World

Premier Tourism Destination providing a multitude of religious, spiritual, coastal, ecological and wellness experiences

Strategic priorities of the State

In addition to achieving the goal of becoming a developed economy, state to also focus on improving the quality of life for all, including strategic priorities as below:

Zero poverty state and Zero Poverty Villages

Demographic management for an effective and productive working age population

Leveraging Public, Private, Peoples Partnership (P4 model) to reduce the urban rural divide and ensure that benefits of development reach all sections of the society

High quality and Affordable healthcare for all enabled by technological advancements
